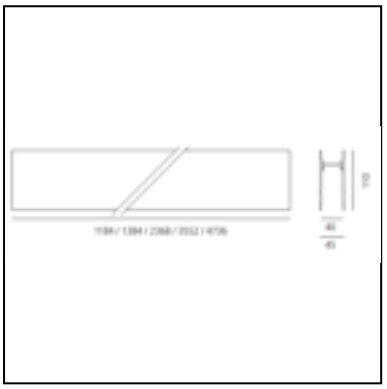
Algoritmo Controlled - Prismoptic Emission - Structural modules suspension, ceiling, wall - 2368mm Silver

Carlotta de Bevilacqua
Paola di Arianello

DESCRIPTION

A modular system for ceiling or wall-recessed installation, to be installed as a continuous line or with angles, composed of structural modules in extruded aluminium, of pre-wired gear plates with through-wiring and quick-connection system of optics systems and components for connecting, fixing, joining or finishing the system. The prewired LED plates were designed for diffused emission, wall washer light, prismoptic or controlled emission, for projectors integration (PAD or Cube 37), for 3 phase track alimentation. Complies with standard EN60598-1 and any other specific standard.



CARACTÈRISTIQUES

- Code Produit : **M205190**
- Couleur: **Silver**
- Installation: **Applique, Suspension, Plafonnier**
- Séries: **Architectural Indoor**
- dessiné par: **Carlotta de Bevilacqua, Paola di Arianello**

DIMENSIONS

- Longueur : **2360 mm**

ACCESSOIRES

90° joint to mechanically connect two recessed modules on one same plane - 0.30 kg - Silver (To be ordered with kit cover angle cod. AE44001 / AE44004) M196890

90° angle to mechanically connect of 2 modules on perpendicular planes. Includes through-wire extensions. 0.60 kg. silver M196790

End caps (set of 2) silver M188890

Suspension kit with power supply. Includes 1 single steel suspension cable + 1 power supply cable Length 2 meters. MV (5x1,5mm2+2x0,5mm2) To power fluorescent modules, white LED plates and accent modules. M189300

Linear connector M189000

Bracket for fixing to wall/ceiling (1 piece) M199400

Suspension kit with power supply. Includes 1 single steel suspension cable + 1 power supply cable Length 2 meters. LV (3x1,5mm2) For supplying LED modules RGB. M189200

Wall bracket To mechanically connect a wall-mounted module. M199300

Steel suspension cable with quick adjustment Length 2 meters M189100
